

The screenshot shows a terminal window with the following content:

```
app1.py > end
1  from flask import Flask
2  app=Flask(__name__)
3  @app.route('/')
4  def welcome():
5      |  return("hlo guys")
6  @app.route('/Excited')
7  def second_fun():
8      |  return("good morning")
9  @app.route('/End the session')
10 def end():
11     |  return(["bye guys thankyou"])
12 if __name__=='__main__':
13     |  app.run( )
